

Climate Action Check List

Good, **B**ad, **M**ixed below on what you are doing, or have done on climate change mitigation.

1. **Solar energy and low energy appliances audit**

How good is your carbon footprint?

2. **Divestment on Fossil Fuels**

Check with your superannuation fund for a start. Also check any stock portfolio.

3. **How do you vote?**

Do you support climate action at the ballot box? Do you support, or are you a member, of any climate action group?

4. **How knowledgeable are you on climate change?**

Have you read books and watched videos on climate change?

5. **Do you discuss it with friends?**

Or is it an Inconvenient Truth you avoid.

6. **Would you describe yourself as an activist?**

Have you attended rallies and protests?

7. **Do you buy local but think global?**

Do you consider the climate impact of your purchases? Do you take reusable shopping bags when shopping?

8. **Do you consider the energy rating when buying electrical appliances?**

Are you prepared to pay more for a higher star rating?

9. **Do you have solar power and batteries?**

Do you think they are a good investment?

10. **Any plans for buying an EV?**

11. **Do you use gas for cooking and heating?**

12. **Are you happy to pay a carbon tax on goods and services?**

For example, do you pay carbon offsets when flying?

The above are for your consideration only.
